

## Serve Robotics Expands in South Florida, Launching Autonomous Deliveries in Fort Lauderdale with Uber Eats

December 5, 2025

FORT LAUDERDALE, Fla., Dec. 05, 2025 (GLOBE NEWSWIRE) -- [Serve Robotics Inc.](#) (Nasdaq: SERV), a leading autonomous sidewalk delivery company, today announced the expansion of its service into Fort Lauderdale, marking a significant extension of its growing footprint in South Florida. The company has existing operations in Miami, and the addition of Fort Lauderdale strengthens Serve's presence across one of the nation's most active and rapidly growing delivery markets.

Fort Lauderdale customers in Downtown and Las Olas Boulevard neighborhoods may now have their restaurant orders delivered by Serve's AI-powered sidewalk robots through Uber Eats (NYSE: UBER). The expansion brings more sustainable, reliable, and cost-efficient delivery options to restaurants and consumers across the region.

"South Florida has proven to be an incredible market for autonomous delivery," said Dr. Ali Kashani, Co-Founder and CEO of Serve Robotics. "Building on our success in Miami, the expansion to Fort Lauderdale allows us to serve more communities, support more restaurant partners, and continue scaling our low-emissions delivery network across the region."

"We're excited to expand autonomous delivery operations in South Florida with Serve," said Aaron Emrich, Global Head of Autonomous Delivery at Uber Eats. "Fort Lauderdale's vibrant restaurant scene, and tech-forward community make it an ideal market to deepen our collaboration and bring more innovative delivery options to customers."

Serve worked closely with local partners, businesses, and city stakeholders to ensure a smooth rollout in Fort Lauderdale, aligning with the city's goals around innovation, mobility, and sustainability. Serve is entering a restaurant market that continues to grow and is known for its mix of beloved local institutions, chef-driven concepts, and a steady influx of new culinary talent. From laid-back coastal eateries to buzzy dining destinations the city offers an ideal environment for autonomous delivery to enhance convenience and support restaurant partners. Fort Lauderdale's vibrant food culture provides a strong foundation for meaningful partnerships and seamless customer experiences, as Serve continues building its footprint across South Florida.

The Fort Lauderdale launch supports Serve's broader expansion strategy as it moves toward deploying 2,000 delivery robots across the U.S. by year end in partnership with Uber Eats. This milestone builds on Serve's successful rollouts in Los Angeles, Chicago, Miami, Dallas-Fort Worth, and Atlanta.

### About Serve Robotics

Serve Robotics develops advanced, AI-powered, low-emissions sidewalk delivery robots that endeavor to make delivery sustainable and economical. Spun off from Uber in 2021 as an independent company, Serve has completed well over 100,000 deliveries for enterprise partners such as Uber Eats and 7-Eleven. Serve has scalable multi-year contracts, including a signed agreement to deploy up to 2,000 delivery robots across multiple U.S. markets.

### Safe Harbor Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Serve intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of the Exchange Act. These forward-looking statements can be about future events, including statements regarding Serve's intentions, objectives, plans, expectations, assumptions and beliefs about future events, including Serve's expectations with respect to the financial and operating performance of its business, its capital position, and future growth. The words "anticipate", "believe", "expect", "project", "predict", "will", "forecast", "estimate", "likely", "intend", "outlook", "should", "could", "may", "target", "plan", "on track" and other similar expressions can generally be used to identify forward-looking statements. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward-looking statements. Any forward-looking statements in this press release are based on management's current expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those set forth in or implied by such forward-looking statements. Risks that contribute to the uncertain nature of the forward-looking statements include those risks and uncertainties set forth in Serve's Annual Report on Form 10-K for the year ended December 31, 2024, filed with the United States Securities and Exchange Commission (the "SEC") and in its subsequent filings filed with the SEC. All forward-looking statements contained in this press release speak only as of the date on which they were made. Serve undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made.
